#### **Lesotho Crisis (1998)**

After Lesotho became independent in 1966, the Basotho National Party (BNP) established a one-party-system that lasted for almost three decades. After being beaten in elections in 1998, street protests against the new government were initialized; paving the way for a coup attempt by a faction of the national army. The conflict escalated when South African and Botswanan troops intervened in support of the elected government and although the revolt was effectively dampened by the end of the year, the political situation has remained fragile since.
