D. Strategies. The following are three strategies to solve the issue of missing persons and cattle:

- ... 3. It is like number A. except that there is a point added to have certificate from relevant authorities on both sides such as to be issued by Payam administrators or Ex. Chiefs to those going to search for missing persons and cattle. Insofar as H.E. the Commissioner of Rumbek County suggested two points for the members of the Peace Council to discuss and resolve:
 - a. In case of any marriage the father of the girl from the two parties should delegate a number of relatives to settle the marriage in order to collect the bride price in a group rather than a single person coming to collect the bride price and taking a different direction without reporting back to relatives who will later deny that the bride price has been received.

b. Those who identify the raided cattle should move with certificates from the authorities such as payam administrators or chiefs to avoid inconvenience caused by immediately selling away the livestock which may belong to somebody different from him and that causes confusion.

B. Retrieved & Missing Cattle. The second point of agenda concerned cattle that have been retrieved and those still missing. It was found that Nuer had not raided any Dinka cattle after the Wunlit Peace and Reconciliation Conference, but Dinka raided a total of 700 head of cattle from Nuer since the Wunlit Conference amnesty date of the 1st of January, 1999. These raids occurred prior to Wunlit but were not covered by the amnesty. The Conference determined that the two raids of February, 1999, were designed to disrupt the peace process and one was held during the exchange visits between Dinka and Nuer chiefs.
