---------------	--

Description	<p>Agreement aimed to solve the conflict between the SPLA Division 6 and the local community following an increase in violence as tensions rose between migratory herdsman, the Dinka SPLA, and the local community. Fighting displaced 80,000 locals from the area. The agreement was broken on 25 November following a gunshot attack on armed youth 30km from Mundri, sparking retaliatory attacks and a downward spiral of violence.</p>

### Local agreement properties

Process type	<p>Formal structured process</p>
Rationale	<p>The agreement is the result of a five-day meeting during which the Church Leaders Mediation team led by Bishop Paul Yugusuk mediated between representatives of the SPLA Mundri Battalion and the local community. The SPLA Division 6 Commander and the Deputy Governor of West Equatoria State also signed the agreement. Limited background research does not suggest a history of signing peace agreements in Mundri specifically. However, this agreement is part of a mediation initiative of the Church Leaders Mediation team that has led to the signing of another agreement in Equatoria (Wonduruba agreement, 3 December 2015).</p>

Is there a documented link to a national peace process?	No
Link to national process: articulated rationale	Neither the agreement text nor limited background research suggests a link to the national-level peace process. Boswell (2019, 12; see references) notes that the mediation initiative that led to the signing of the agreement was not officially recognised or supported by the main conflict parties (the Government of South Sudan and the SPLA-IO).
