Local agreement properties

Process type	Formal structured process
Rationale	-> Link to national level; external support mechanism; culture of signing A regional mechanism (under the auspices of Russia) supported the negotiation of the agreement. Moreover, Russia – one of the signing parties – has quickly assumed a central role in the negotiations between Bashar al-Assad government and the opposition factions, aiming at bringing a definitive end to the Syrian conflict.
Is there a documented link to a national peace process?	Yes
Link to national process: articulated rationale	It seems that the agreement is directly linked to the national peace process. The document refers to the Russian Federation as “one of the guarantor states of the [national] stabilisation process” in Syria. Furthermore, both parties agree to respect the “principle of the sovereignty of the Syrian Arab Republic as well as its territorial integrity” that lies at the centre of negotiation to bring an end to the Syrian conflict. The signing parties also agree to respect “the necessity of the cease of fighting within a comprehensive solution in Syria”.
