### Local agreement properties

**Process type** Informal but persistent process

**Rationale** -> Link to national level; no external support mechanism; culture of signing  
Although the agreement was not supported by any formal mechanism at the national/regional level, it is embedded in a culture of signing (and supporting) agreements in this locale and in this timeframe (August/September 2018). The agreement mentions that the parties "Support[ing] the [previous] agreement that was signed between the parties in the Zawiyah municipality, which was sponsored by the United Nations delegation [...]".

**Is there a documented link to a national peace process?** Yes

**Link to national process: articulated rationale** The agreement seems linked to the national process. It was signed by local state leaders (mayors) from municipalities ostensibly on different sides of the conflict. Also, signing parties "call[ing] upon the UN delegation to bear its full responsibility towards the Libyan people".
