Local agreement properties

Process type	Informal but persistent process
Rationale	The armed groups in the CAR have signed multiple agreements that confirm or restate their mutual relationships, as well as their relationship with the government. This is another such agreement, with a strong local focus on preventing banditry and keeping the transhumance corridors open.
Is there a documented link to a national peace process?	Yes
Link to national process: articulated rationale	In the 'Letter dated 14 December 2018 from the Panel of Experts on the Central African Republic established pursuant to resolution 2399 (2018) addressed to the President of the Security Council', this agreement is described as presenting the armed groups' unity with regard to the government. In this sense, this agreement is meant to increase their influence on the broader negotiations and the role these groups play in the broader conflicts in CAR.

Grievance List No specific mention.

Cattle rustling/
banditry

Page 1:
We, military leaders of the FPRC, MOC, and UPC, after a long consultation in the Moyenne Sido base of the MPC; have identified all our differences and have decided to join hands in the fight against banditry in the Transhumance zone and all our respective areas.
We have decided to set up a joint commission that will be responsible for peacefully settling any dispute between traders and breeders in our areas, in addition to the establishment of an FPRC-MPC-UPC Joint Force, which will be responsible for securing the transhumance corridors.
To this end, we inform the national and international community that we are now a team, whose goal is to restore peace and stabilize the CAR to allow the free movement of goods and people, as well as the free movement of National and International NGOs.

Social cover No specific mention.
