Process type Isolated example

Rationale -> Local issues only; no external support mechanism; no culture of signing
The agreement seems to be the result of a once-off negotiation that relates to a specific city. It does not appear that any national or regional mechanism was established to support the negotiation. Finally, the agreement does not seem to relate to a persistent practice or culture of signing agreements, even though Tahrir al-Sham signed several agreements with local representatives on matters related to civil administration and the (de)militarisation of specific locales.

Is there a documented link to a national peace process? No

Link to national process: articulated rationale The declaration does not contain any mention to the wider peace process in Syria; although it involved the representation of civilian constituencies.
