### Local agreement properties

**Process type** Informal but persistent process

**Rationale** The agreement refers to "the resolutions of HITO (Hiyala, Ikwoto, Oudo) 2016 and the peace made between our landlords on 25th April 2017" (p. 2), suggesting that this agreement is not the result of an isolated process. However, limited background research did not yield information about any form of structured support or a clear formally established process of peace agreement-making.

**Is there a documented link to a national peace process?** No

**Link to national process: articulated rationale** This agreement deals with local instances of killings and cattle raiding and does not appear to have any substantive links to the national-level peace process in South Sudan.
