Description A short but detailed protocol agreement connected to the bilateral national ceasefire between the Government of the Republic of Colombia and the Ejército de Liberación Nacional (ELN), providing for protection mechanisms to be enforced by the Police and Armed forces ensuring the safety of the Monitoring and Verification Mechanism (MVM). Substantively the agreement sets out detailed provisions for how the Police and Armed forces should work with the MVM to ensure the protection of its members, including ELN members, when travelling to carry out implementation activities related to the national ceasefire. The agreement provides in detail for a range of protection mechanisms, encouraging channels of communication concerning these protections between the MVM, Armed forces and Police Unit for peacebuilding. There is also provision for resources to support the protection mechanisms, to be provided by the government and the group of accompanying support and cooperation countries (GPAAC).
